Antiradioactive particle suit, reflective, cannot hold to many rads

Re: my own scientific grade at stake, it is the Rembrandt, the implement of 29 years, wish to get reviewed my 98 pages thesis 13-03-2017 Raymond Burt

Sirs, have indeed endeavored to succeed on a research project, do know am not as succinctly qualified to add much in my findings, am not a wealthy criteria needs of your wealth of knowledge as a contributor to my grade,...i 've studied physics, astrophysics & technician &microcircuitry, processors basically a computer

ray

physics ideas there...i 'm not Stephen Hawking's PHD but am confined to a chair...i wish it if at all possible of your discreet evaluation of my 97 pages thesis/

study as i pronounce to you, had been busy elaborating, it has links i am sure it can be proof of my innate dedication, i had been named and told, shimmied as Quarter-mass, a nut if its not...,it is confirmed, and i might be there to summarily define all parts of these works, & 4 work books..., i have been told the subject matter is plagiarism, it is not. i might be unusual but it is solely my intent to be opening up the eyes of the opinion, i had been strongly felt, through NASA and the SETI institute wherefore am an member, summary for my research is below

Most of the paper fold is the matter replacement of light molecular energy, i plan to enlighten bodies if you will ", molecular restraints in the body bonding shape, a rectangular metaphor. flow discreetly, may a light speed encroach on another, thru a planet any objects, Newtons plotted the painstaking harbor and the ingenuities, do we approach the speed of the neuron disorder, it is not sirs. our neurons may, might be trans versed and the cloning permitted in egalitarian space/ time, do we hold hyper fold, swivel reaction times: Do we sponsor the life in Object collusion inaction vs action, a replicon we endow the energy freehold, we, do we intently and the spherical vortex at a quadrant in time to synthesis of the biological vermin, do we alienate the partiality, do we hold these the light

ray

field in the dispersion layers of molecular time encapsulated and the Sine/Wa=Vm'. we had then immensely advertised the issuant particle of the god particle in science/ do we regulate the capacitor and the capacity to in real time, EC=-M-//^Ga how our mass is changed in 11/100 per paracek/ 65e cycles: my bio genetically control i had witnessed in my many facades, as a caveat we can in 23 layer adopt and point(perhaps scientifically impossible, it can replicate person remotely charged nutrient,

Please if it might reviewal of the paper attached

Regards kindly

Raymond Burt

Antiradioactive particle suit, reflective, cannot hold to many rads

Re: my own scientific grade at stake, it is the Rembrandt, the implement of 29 years, wish to get reviewed my 98 pages thesis 13-03-2017 Raymond Burt

Sirs, have indeed endeavored to succeed on a research project, do know am not as succinctly qualified to add much in my findings, am not a wealthy criteria needs of your wealth of knowledge as a contributor to my grade,...i 've studied physics, astrophysics & technician &microcircuitry, processors basically a computer physics ideas there...i 'm not Stephen Hawking's PHD but am confined to a chair...i wish it if at all possible of your discreet evaluation of my 97 pages thesis/

study as i pronounce to you, had been busy elaborating, it has links i am sure it can be proof of my innate dedication, i had been named and told, shimmied as Quarter-mass, a nut if its not...,it is confirmed, and i might be there to summarily define all parts of these works, & 4 work books..., i have been told the subject matter is plagiarism, it is not. i might be unusual but it is solely my intent to be opening up the eyes of the opinion, i had been strongly felt, through NASA and the SETI institute wherefore am an member, summary for my research is below

Most of the paper fold is the matter replacement of light molecular energy, i plan to enlighten bodies if you will ", molecular restraints in the body bonding shape, a rectangular metaphor. flow discreetly, may a light speed encroach on another, thru a planet any objects, Newtons plotted the painstaking harbor and the ingenuities, do we approach the speed of the neuron disorder, it is not sirs. our neurons may, might be trans versed and the cloning permitted in egalitarian space/ time, do we hold hyper fold, swivel reaction times: Do we sponsor the life in Object collusion inaction vs action, a replicon we endow the energy freehold, we, do we intently and the spherical vortex at a quadrant in time to synthesis of

ray

the biological vermin, do we alienate the partiality, do we hold these the light field in the dispersion layers of molecular time encapsulated and the Sine/Wa=Vm'. we had then immensely advertised the issuant particle of the god particle in science/ do we regulate the capacitor and the capacity to in real time, EC=-M-//^Ga how our mass is changed in 11/100 per paracek/ 65e cycles: my bio genetically control i had witnessed in my many facades, as a caveat we can in 23 layer adopt and point(perhaps scientifically impossible, it can replicate person remotely charged nutrient,

Please if it might reviewal of the paper attached
Regards kindly

Raymond Burt

ttd

- n a "minibrain," blood vessels (red) penetrate the outer layers of the organoid (blue), with some growth into the organoid core (green).
- *Credit: UC Davis Institute for Regenerative Cures*

- Miniature brains grown in the lab have moved one step closer to resembling the real thing.

- Scientists have succeeded in nurturing the growth of blood vessels in minibrains that were developed from human stem cells, and they grew both the minibrain and the blood vessels from stem cells that originated from the same patient, according to a new study.

- The simplified, tiny organ, or organoid, was grown in the lab and coated with endothelial cells — specialized blood vessel cells — then transplanted into a mouse for two weeks. During the minibrain's time in vitro and then in a living body, the endothelial cells grew into blood vessels and even capillaries, poking their tendrils into the organoid's inner core, the study authors reported. (Capillaries are very fine, narrow blood vessels.) [11 Body Parts Grown in the Lab]

Antiradioactive particle suit, reflective, cannot hold to many rads

Re: my own scientific grade at stake, it is the Rembrandt, the implement of 29 years, wish to get reviewed my 98 pages thesis 13-03-2017 Raymond Burt

Sirs, have indeed endeavored to succeed on a research project, do know am not as succinctly qualified to add much in my findings, am

ray

not a wealthy criteria needs of your wealth of knowledge as a contributor to my grade,...i 've studied physics, astrophysics & technician &microcircuitry, processors basically a computer physics ideas there...i 'm not Stephen Hawking's PHD but am confined to a chair...i wish it if at all possible of your discreet evaluation of my 97 pages thesis/

study as i pronounce to you, had been busy elaborating, it has links i am sure it can be proof of my innate dedication, i had been named and told, shimmied as Quarter-mass, a nut if its not...,it is confirmed, and i might be there to summarily define all parts of these works, & 4 work books..., i have been told the subject matter is plagiarism, it is not. i might be unusual but it is solely my intent to be opening up the eyes of the opinion, i had been strongly felt, through NASA and the SETI institute wherefore am an member, summary for my research is below

Most of the paper fold is the matter replacement of light molecular energy, i plan to enlighten bodies if you will ", molecular restraints in

ray

the body bonding shape, a rectangular metaphor. flow discreetly, may a light speed encroach on another, thru a planet any objects, Newtons plotted the painstaking harbor and the ingenuities, do we approach the speed of the neuron disorder, it is not sirs. our neurons may, might be trans versed and the cloning permitted in egalitarian space/ time, do we hold hyper fold, swivel reaction times: Do we sponsor the life in Object collusion inaction vs action, a replicon we endow the energy freehold, we, do we intently and the spherical vortex at a quadrant in time to synthesis of the biological vermin, do we alienate the partiality, do we hold these the light field in the dispersion layers of molecular time encapsulated and the Sine/Wa=Vm'. we had then immensely advertised the issuant particle of the god particle in science/ do we regulate the capacitor and the capacity to in real time, EC=-M-//^Ga how our mass is changed in 11/100 per paracek/ 65e cycles: my bio genetically control i had witnessed in my many facades, as a caveat we can in 23 layer adopt and point(perhaps scientifically impossible, it can replicate person remotely charged nutrient,

ray

Please if it might reviewal of the paper attached

Regards kindly

Raymond Burt

Antiradioactive particle suit, reflective, cannot hold to many rads
Re: my own scientific grade at stake, it is the Rembrandt, the implement of 29 years, wish to get reviewed my 98 pages thesis 13-03-2017 Raymond Burt

Sirs, have indeed endeavored to succeed on a research project, do know am not as succinctly qualified to add much in my findings, am not a wealthy criteria needs of your wealth of knowledge as a contributor to my grade,...i 've studied physics, astrophysics & technician &microcircuitry, processors basically a computer physics ideas there...i 'm not Stephen Hawking's PHD but am confined to a chair...i wish it if at all possible of your discreet evaluation of my 97 pages thesis/

study as i pronounce to you, had been busy elaborating, it has links i am sure it can be proof of my innate dedication, i had been named and told, shimmied as Quarter-mass, a nut if its not...,it is confirmed, and i might be there to summarily define all parts of these works, & 4 work books..., i have been told the subject matter is plagiarism, it is

ray

not. i might be unusual but it is solely my intent to be opening up the eyes of the opinion, i had been strongly felt, through NASA and the SETI institute wherefore am an member, summary for my research is below

Most of the paper fold is the matter replacement of light molecular energy, i plan to enlighten bodies if you will ", molecular restraints in the body bonding shape, a rectangular metaphor. flow discreetly, may a light speed encroach on another, thru a planet any objects, Newtons plotted the painstaking harbor and the ingenuities, do we approach the speed of the neuron disorder, it is not sirs. our neurons may, might be trans versed and the cloning permitted in egalitarian space/ time, do we hold hyper fold, swivel reaction times: Do we sponsor the life in Object collusion inaction vs action, a replicon we endow the energy freehold, we, do we intently and the spherical vortex at a quadrant in time to synthesis of the biological vermin, do we alienate the partiality, do we hold these the light field in the dispersion layers of molecular time encapsulated and the Sine/Wa=Vm'. we had then immensely advertised the issuant particle of the god particle in science/ do we regulate the capacitor and the capacity to in real time, EC=-M-//^Ga how our mass is changed in 11/100 per paracek/ 65e cycles: my bio genetically control i had witnessed in my many facades, as a caveat we can in 23 layer adopt and point(perhaps scientifically impossible, it can replicate person remotely charged nutrient,

ray

Please if it might reviewal of the paper attached

Regards kindly

Raymond Burt

- n a "minibrain," blood vessels (red) penetrate the outer layers of the organoid (blue), with some growth into the organoid core (green).
- *Credit: UC Davis Institute for Regenerative Cures*

- Miniature brains grown in the lab have moved one step closer to resembling the real thing.

- Scientists have succeeded in nurturing the growth of blood vessels in minibrains that were developed from human stem cells, and they grew both the minibrain and the blood vessels from stem cells that originated from the same patient, according to a new study.

- The simplified, tiny organ, or organoid, was grown in the lab and coated with endothelial cells — specialized blood vessel cells — then transplanted into a mouse for two weeks. During the minibrain's time in vitro and then in a living body, the endothelial cells grew into blood vessels and even capillaries, poking their tendrils into the organoid's inner core, the study authors reported. (Capillaries are very fine, narrow blood vessels.) [11 Body Parts Grown in the Lab]

Psalm 8 : 5 "What is man that you are mindful of him, the son of man that you care for him? You made him a little lower than the heavenly beings and crowned him with honour and glory."

Psalm 51: 5 "Surely I was sinful at birth, sinful from the time my mother conceived me."

Matthew 8 : 16 – 17 And, when it was late in the day, they brought to him many who were in the power of evil spirits, and he cast out the spirits with a word, and healed all those who were ill. This happened that the saying spoken through the prophet Isaiah might be fulfilled : "He took our weaknesses and carried our sins."

Matthew 19 : 16 – 17 Now a man came up to Jesus and asked, Teacher what good thing must I do to get eternal life.?" "Why do you ask me about what is good?" Jesus replied, "There is only One who is good."

Mark 10 : 17 – 18 As Jesus started on his way, a man ran up to him and fell on his knees before him. " Good teacher," he asked, " What must I do to inherit eternal life?" " Why do you call me good?" Jesus answered, " No one is good – except God alone."

John 1 : 32 – 34 So John bore his witness. "With my own eyes," he said, "I saw the Spirit coming down from heaven, as it might have been a dove, and the Spirit remained upon him. And I did not know him. But it was he who sent me to baptize with water who said to me. The one on whom you see the Spirit coming down and remaining is the one who baptizes with the Holy Spirit. And I saw it happen ; and my witness stands that this is the Son of God."

John 5 : 31 – 36 " If I bear witness about myself, my witness need not be accepted as true : but it is another who is bearing witness about me, and I know that the witness which he bears about me is true. You sent your envoys to John, and he bore witness to the truth ; but the testimony which I receive is not from any man, but I say these things that you may be saved.

CONFIDENTIAL For Review Only

He was the lamp which burns and shines. For a time you were pleased to take pleasure in his light. But I have a greater testimony than John's. The works which the Father granted to me to accomplish, the very works which I do, are evidence about me to prove that my Father has sent me."

John 10 : 17 – 18 " The reason why my Father loves me is that I lay down my life that I may take it again. No one takes it from me, but I lay it down of my own free will. I have full authority to lay it down, and I have full authority to take it again. I have received this injunction from my Father."

John 15 : 18 – 21 " If the world hates you, you know that it hated me before it hated you. If you were of the world, the world would love its own ; but the world hates you, because you are not of the world, but I have picked you out of the world. Remember the word which I spoke to you – the servant is not greater than his master. If they persecuted me, they will persecute you. If they kept my word, they will keep yours. But they will do these things to you because of my name, because they do not know him who sent me."

Romans 1 : 3 ".....regarding his Son, who as to his human nature was a descendant of David…"

CONFIDENTIAL For Review Only

Romans 1 : 1 – 7 This is a letter from Paul, a slave of Jesus Christ, called to be an apostle, set apart to serve the good news of God. This good news God promised long ago, through his prophets, in the sacred writings. It is good news about his Son, who in his manhood was born of David's lineage, who, as a result of his Resurrection from the dead, has been proved by the Holy Spirit to be the mighty Son of God. It is of Jesus Christ, our Lord, of whom I am speaking, through whom we have received grace, and an apostleship to awaken a faithful obedience for his sake amongst all the gentiles. You are included amongst these gentiles, you have been called to belong to Jesus Christ. This is a letter to all the beloved in Rome who belong to God, those who have been called to be dedicated to him. Grace be to you and peace from God our Father, and from the Lord Jesus Christ.

Romans 8 : 1 – 4 There is, therefore, now no condemnation against those who are in Christ Jesus. For the law which comes from the Spirit and leads to life has in Christ Jesus set me free from the law which begets sin and leads to death. As for the impotency of the law, that weakness of the law which resulted from the effects of our sinful human nature – God sent his own Son as a sin offering with that very same human nature which in us had sinned ; and thereby, while he existed in the same human nature as we have, he condemned sin, so that as a result the righteous demand of the law might be fulfilled in us, who live our lives not after the principle of sinful human nature, but after the principle of the Spirit.

Romans 8 : 3 "For what the law was powerless to do in that it was weakened by the sinful nature, God did by sending his Own Son in the likeness of sinful man to be a sin offering."

2 Corinthians 5 : 21 “God made him who had no sin to be sin for us, so that in him we might become the righteousness of God”

Galatians 4 : 4 “ But when the time had fully come, God sent his Son, born of woman, born under law…….”

Philippians 2 : 5 – 11 Have within yourselves the same disposition of mind as was in Christ Jesus, for he was by nature in the very form of God, yet he did not regard existence in equality with God as something to be snatched at, but he emptied himself, and took the very form of a slave, and became like men. And when he came in appearance as a man for all to recognize, he became obedient even to the extent of accepting death, even the death of a cross. And for that reason God exalted him, and granted to him the name which is above every name, in order that at the name of Jesus every knee should bow, of things in heaven, and things upon the earth, and things below the earth, and that every tongue should confess that Jesus Christ is Lord to the glory of God the Father.

1 Timothy 3 : 16 “He who was manifest in the flesh”

CONFIDENTIAL For Review Only

1 Timothy 3 : 16 As everyone must confess, great is the secret which God has revealed to us in our religion : He who was manifested in the flesh : He who was vindicated by the Spirit : He who was seen by angels : He who has been preached among the nations : He in whom men have believed all over the world : He who was taken up into glory.

2 Timothy 2 : 8 – 10 Remember Jesus Christ, risen from the dead, born of the seed of David, as I preached the gospel to you, that gospel for which I suffer, even to the length of fetters, on the charge of being a criminal. But though I am fettered, the word of God is not bound. Therefore I endure everything for the sake of God’s chosen ones, that they too may obtain the salvation that is in Christ Jesus, with eternal glory.

Hebrews 2 : 7 “You made him a little lower than the angels.”

Hebrews 2 : 10 – 18 For, in his work of bringing many sons to glory, it was fitting that he for whom everything exists and through whom everything exists, should make the pioneer of salvation fully adequate for his destined work through suffering. For he who sanctifies and they who are sanctified must come of one stock. It is for this reason that he does not hesitate to call them brothers, as when he says : “I will tell your name to my brothers ; I will sing hymns to you in the midst of the gathering of your people.” And again : “ I will put all my trust in him.” And again : Behold me and the children God gave to me.” The children then have a common flesh and blood and he completely shared in them, so that, by that death of his, he might bring to nothing him who has the power of death, and might set free all those who, for fear of death, were all their lives liable to a slave’s existence. For I presume it is not angels he helps ; but it is the seed of Abraham that he helps. So he had in all things to be made like his brothers so that he might become a merciful and faithful high priest in the things

which pertain to God, to win forgiveness for the sins of his people. For in that he himself was tried and suffered, he is able to help those who are undergoing trial.

Hebrews 2 : 14 – 17 " Since the children have flesh and blood, he too shared in their humanity so that by his death he might destroy him who holds the power of death – that is, the devil – and free those who all of their lives were held in slavery by their fear of death. For surely it is not angels he helps, but Abraham's descendants. For this reason he had to made like his brothers in every way, in order that he might become a merciful and faithful high priest in service to God, and that he might make atonement for the sins of the people."

Hebrews 2 : 18 " Because he suffered when he was tempted, he is able to help those who are being tempted."
Hebrews 5 : 7 – 10 "During the days of Jesus's life on earth, he offered up prayers and petitions with loud cries and tears to the one who could save him from death and he was heard because of his reverent submission. Although he was a son, he learned obedience from what he suffered, and once made perfect, he became the source of eternal salvation for all who obey him and was designated by God to be high priest in the order of Melchizedek."

Hebrews 9 : 28 ".. so Christ was sacrificed once to take away the sins of many people ; and he will appear a second time, not to bear sin but to bring salvation to those who are waiting for him."

Hebrews 12 : 3 – 4 Consider him who steadfastly endured such opposition at the hands of sinners, and compare your lives with his, so that you may not faint and grow weary in your souls. You have not yet had to resist to the point of blood in your struggle against sin.

1 Peter 4 : 1 – 6 Since, then, Christ, suffered in the flesh, you too must arm yourselves with the same conviction that he who has suffered in the flesh has ceased from sin,

1 John 1 : 1 – 4 "What we are telling you about, is that which was from the beginning, that which we heard, that which we saw with our eyes, that which we gazed upon, and which our hands touched."

1 John 5 : 6 – 8 "This is he who came through water and blood – Jesus Christ. It was not only by water that he came, but by water and by blood. And it is the Spirit which testifies to this, because the Spirit is truth ; because there are three who testify, the Spirit and the water and the blood, and the three agree in one."

Revelation 1 : 17 – 18 "Stop being afraid. I am the first and the last ; I am the living one although I was dead, and, behold, I am alive for ever and ever…"

CONFIDENTIAL For Review Only

Revelation 19 : 13 He is clothed in a robe dipped in blood, and the name by which he is called is the Word of God.

Revelation 22 : 16 I, Jesus, sent my angel to you to testify to these things for the sake of the Churches. I am the root and the offspring of David, and the bright morning star.

Brahms 1000 years of lifewBr@Rk/RiEC

energy is threefold: its conducive to speed: I eliminated Light: in a cooperativeness, it makes the vortices: I means a hole in matter, condensed it makes the goad particle as such time, do we forget time is the stagnant, intervals between it and the human being: is the suggestive light/ time frequencies: is time at beast able to eliminate our Specie, is our oneness equilibrated as the atom: if not the collective of memory we did it whence we're youthful, we called it daydream islanders , Sport? Does our movement through time discriminate, no!

neu/ i0 root Ba10*(Ze^paraflex:eS is instigate Light speed, we conjoined theory: eliminate a particle is in us: time vs light hypothesis: do in eventually, we sustain altered space/ time/ we coordinate time equilateral between parallel lineage: thus warp, time Spacie 7 can be coerced

very nicely placed: Mistake, we cyclonic plasma, representative at the speed of light,. we thus tumble rather spectral neurotic behavior topples, we are induced in a stroke, a metabolic ship travels, shrinks to a nuclei, we become float free of time: these instigated the only parcel to pass through a vector in space at light / time speed
